

# TerraLUX™ MaxCharger3™

Finally an LED Replacement for the Mag Charger

## Features

- 100 Lumens of Light Output-the Brightest!
- 100,000 hr Rated Life
- Shock Mounted for Durability
- 6 hour Runtime-not 1 hour!
- Electronic Regulation for Rock Steady Light Output.
- Never Needs Replacing
- Pure White Light
- Consistent Brightness and Color Regardless of Battery Condition

## Specifications

- 3 WATT LUMILED LED
- 6 HR RUNTIME ON FULLY CHARGED BATTERIES (6.2VDC)
- SOPHISTICATED SOLID STATE ELECTRONIC REGULATION

## *Introducing the All New MaxCharger3*

- **EXTREMELY INTENSE LIGHT** output comes from the combination of a **3 Watt Luxeon® LEDs** and the **PowerPush** power management circuitry. The LED generates approximately **100 Lumens** of light output, about the same as the standard halogen bulb. The fixed focus total internal reflection (TIR) optics ensure a long beam throw but good side illumination too.
- **NEVER BURNS OUT.** With a rated 100,000 hr life you should never need to replace a bulb again! No more delicate, expensive bulb to handle.
- **LONGER BATTERY LIFE** results from the **PowerPush circuit** built into the unit which completely utilizes the power from the batteries, while maintaining constant light output. Expect a 6 hour runtime instead of 1 hr.
- **SAVE MONEY!** Rechargeable batteries must be replaced after about 300 cycles. The longer run time with the Max-Charger3 means fewer charging cycles and more money in your pocket. **PAYS FOR ITSELF IN BULBS AND BATTERIES.**
